register/sponsor/donate

It is our belief that community members with influence over our young people should consistently send a message that drug use is wrong and that it not only affects the person taking the drugs, but negatively impacts family and friends as well.

We invite you to visit our website www.kylefranks.org for helpful guidance and educational information and to view videos that showcase our community involvement.

We fundraise year round to support our initiatives and can always use your support and participation.
